## PREGENDEV

PREGENDEV indicates whether or not the respondent has ever had a pregnancy end in miscarriage, abortion, or stillbirth.

The question associated with this variable was included in the female questionnaire.

---

### **Ever had a pregnancy that miscarried, aborted, or stillbirth**

---

No	9,027 (95%)
Yes	417 (4.4%)
No response or missing	11 (0.1%)
Unknown	87,026

---

## PREGEND

PREGEND indicates whether or not the respondent has had a pregnancy end in miscarriage, abortion, or stillbirth within the contraceptive calendar recall period.

The question associated with this variable was included in the female questionnaire.

---

### Had pregnancy that ended in last 3 yrs

---

No	32,643 (64%)
Yes	1,564 (3.1%)
No response or missing	14 (<0.1%)
NIU (not in universe)	16,543 (33%)
Unknown	45,717

---

## ABORYRSAGO

ABORYRSAGO reports approximately how long ago the woman ended a pregnancy if she did not know the exact month (ABORMON) and year (ABORYR).

The question associated with this variable was included in the female questionnaire.

Number of years ago pregnancy ended	
One year or less ago	4 (<0.1%)
More than 1 year to 3 years ago	9 (0.2%)
More than 3 years to 5 years ago	11 (0.2%)
More than 5 years ago	40 (0.9%)
NIU (not in universe)	4,437 (99%)
Unknown	91,980

## PREGENDYR

For women who had a pregnancy end in miscarriage, abortion, or stillbirth, PREGENDYR reports the calendar year the last such pregnancy ended.

Enumerators were instructed to enter the date as January 1st, 2020 if the respondent did not give a response to the associated survey question. IPUMS has recoded these cases to “No response or missing.”

The question associated with this variable was included in the female questionnaire.

---

### Year last pregnancy was terminated

---

1989	1 (<0.1%)
1994	1 (<0.1%)
1995	2 (<0.1%)
1997	1 (<0.1%)
1998	1 (<0.1%)
2000	5 (<0.1%)
2001	1 (<0.1%)
2002	1 (<0.1%)
2003	2 (<0.1%)
2004	2 (<0.1%)
2005	5 (<0.1%)
2006	2 (<0.1%)
2007	1 (<0.1%)
2009	4 (<0.1%)
2010	3 (<0.1%)
2011	1 (<0.1%)
2012	3 (<0.1%)
2013	4 (<0.1%)
2014	5 (<0.1%)

---

2016	4 (<0.1%)
2017	241 (0.4%)
2018	691 (1.1%)
2019	1,032 (1.7%)
2020	608 (1.0%)
2021	2 (<0.1%)
No response or missing	26 (<0.1%)
NIU (not in universe)	57,561 (96%)
Unknown	36,262

## PREGENDMO

For women who had a pregnancy end in miscarriage, abortion, or stillbirth, PREGENDMO reports the calendar month the last such pregnancy ended.

The question associated with this variable was included in the female questionnaire.

---

### Month last pregnancy was terminated

---

January	232 (0.4%)
February	197 (0.3%)
March	218 (0.4%)
April	237 (0.4%)
May	204 (0.3%)
June	242 (0.4%)
July	220 (0.4%)
August	231 (0.4%)
September	225 (0.4%)
October	237 (0.4%)
November	186 (0.3%)
December	203 (0.3%)
No response or missing	26 (<0.1%)
NIU (not in universe)	57,561 (96%)
Unknown	36,262

---

## ABORWHERE

ABORWHERE reports where the most recent abortion of the respondent was performed.

The coding scheme is comparable to FPPROVIDER.

The question associated with this variable was included in the female questionnaire.

---

### Where abortion was performed

---

Government hospital	224 (0.5%)
Medical center	2 (<0.1%)
Government health center	115 (0.3%)
Family planning clinic, public	29 (<0.1%)
Government health post	7 (<0.1%)
Health sub-centre (ANM)	1 (<0.1%)
Government dispensary	4 (<0.1%)
Field worker, public	1 (<0.1%)
Other, public	3 (<0.1%)
Private hospital / clinic	431 (1.0%)
Private hospital	432 (1.0%)
Mobile clinic, private	8 (<0.1%)
Private doctor/clinic	4 (<0.1%)
Private doctor	117 (0.3%)
Maternity home, private	1 (<0.1%)
Pharmacy	31 (<0.1%)
Chemical/drug store	7 (<0.1%)
Fieldworker, private	1 (<0.1%)
Outreach, private	1 (<0.1%)
Other, private	19 (<0.1%)
NGO or Trust hospital/clinic	42 (<0.1%)

Store/market/boutique/kiosk	18 (<0.1%)
Street vendor	1 (<0.1%)
Health agent or community health worker (not specified as public or private)	1 (<0.1%)
Friend / relative	39 (<0.1%)
Traditional healer	61 (0.1%)
Self/House	161 (0.4%)
Other	26 (<0.1%)
Don't know	1 (<0.1%)
No response or missing	1 (<0.1%)
NIU (not in universe)	41,093 (96%)
Unknown	53,599

## ABOREV

ABOREV indicates whether the woman ever had an abortion to terminate a pregnancy.

The question associated with this variable was included in the female questionnaire.

---

### **Ever aborted pregnancy**

---

No	28,242 (80%)
Yes	2,477 (7.0%)
Yes, abortion successful	426 (1.2%)
Yes, abortion failed	395 (1.1%)
Don't know	4 (<0.1%)
No response or missing	49 (0.1%)
NIU (not in universe)	3,743 (11%)
Unknown	61,145

---

## ABORMON

ABORMON indicates the month when the woman last aborted a pregnancy.

The question associated with this variable was included in the female questionnaire.

---

### Month of last aborted pregnancy

---

January	49 (0.6%)
February	55 (0.6%)
March	61 (0.7%)
April	47 (0.5%)
May	53 (0.6%)
June	51 (0.6%)
July	40 (0.5%)
August	43 (0.5%)
September	35 (0.4%)
October	30 (0.3%)
November	31 (0.4%)
December	27 (0.3%)
Don't know	106 (1.2%)
NIU (not in universe)	8,161 (93%)
Unknown	87,692

---

## ABORYR

ABORYR indicates the year when the woman last aborted a pregnancy.

The question associated with this variable was included in the female questionnaire.

---

### Year of last aborted pregnancy

---

1984	1 (<0.1%)
1985	3 (<0.1%)
1986	3 (<0.1%)
1987	4 (<0.1%)
1988	6 (<0.1%)
1989	3 (<0.1%)
1990	16 (<0.1%)
1991	7 (<0.1%)
1992	20 (<0.1%)
1993	12 (<0.1%)
1994	18 (<0.1%)
1995	25 (<0.1%)
1996	17 (<0.1%)
1997	26 (<0.1%)
1998	48 (0.2%)
1999	38 (0.1%)
2000	63 (0.2%)
2001	43 (0.1%)
2002	36 (0.1%)
2003	68 (0.2%)
2004	56 (0.2%)
2005	70 (0.2%)

---

2006	74 (0.2%)
2007	72 (0.2%)
2008	100 (0.3%)
2009	114 (0.4%)
2010	125 (0.4%)
2011	107 (0.3%)
2012	152 (0.5%)
2013	165 (0.5%)
2014	163 (0.5%)
2015	240 (0.8%)
2016	279 (0.9%)
2017	329 (1.1%)
2018	210 (0.7%)
2019	65 (0.2%)
2020	75 (0.2%)
No response or missing	65 (0.2%)
NIU (not in universe)	28,130 (91%)
Unknown	65,433

## ABORPLANNED

ABORPLANNED indicates whether the woman intentionally ended the pregnancy or that it ended naturally.

The question associated with this variable was included in the female questionnaire.

---

### Pregnancy removal was intentional or natural

---

Intentionally ended	104 (1.6%)
Ended naturally / miscarriage	16 (0.2%)
Don't know	2 (<0.1%)
No response	1 (<0.1%)
NIU (not in universe)	6,497 (98%)
Unknown	89,861

---

## ABORSUCC

For women aged 15-49 who ever intentionally tried to end a pregnancy, ABORSUCC indicates whether the woman successfully removed the pregnancy. The question associated with this variable was included in the female questionnaire.

---

### Pregnancy removal was successful

---

No	51 (0.8%)
Yes	52 (0.8%)
Don't know	1 (<0.1%)
NIU (not in universe)	6,516 (98%)
Unknown	89,861

---

## ABORCERTAINTY

For women who had ever done anything to end a pregnancy in the past ten years, ABORCERTAINTY indicates the woman's level of certainty that she was pregnant at the time.

The question associated with this variable was included in the female questionnaire.

---

### Certainty of pregnancy when it was removed

---

Very certain	90 (1.4%)
Somewhat certain	17 (0.3%)
Not at all certain	13 (0.2%)
Did not think I was pregnant	3 (<0.1%)
NIU (not in universe)	6,497 (98%)
Unknown	89,861

---

## ABORPREGTEST

For women who had suspected they were pregnant, ABORPREGTEST indicates whether they woman took a pregnancy test to confirm.

The question associated with this variable was included in the female questionnaire.

---

### Took test to confirm pregnancy

---

No	46 (0.7%)
Yes	77 (1.2%)
NIU (not in universe)	6,497 (98%)
Unknown	89,861

---

## ABORDUR

For women who have successfully ended a pregnancy, ABORDUR, together with ABORDURVAL, reports how long she had been pregnant when she ended the pregnancy.

Note that this variable reports only a specific unit of time i.e., weeks or months, not the actual duration of the interval. The specific number of weeks or months is reported in ABORDURVAL. Users must use both ABORDUR and ABORDURVAL to determine the exact amount of time the woman had been pregnant.

The question associated with this variable was included in the female questionnaire.

---

### Gestational age when removed pregnancy (units)

---

Weeks	11 (0.2%)
Months	39 (0.6%)
Don't know	2 (<0.1%)
NIU (not in universe)	6,568 (99%)
Unknown	89,861

---

## ABORDURVAL

For women who had been pregnant for weeks or months when ending the pregnancy, ABORDURVAL, together with ABORDUR, reports how long she had been pregnant when she ended the pregnancy.

Note that the codes in this variable are not reported in a specific unit of time i.e., weeks or months. Rather, the unit of time in which the woman responded is reported in ABORDUR. Users must use both ABORDURVAL and ABORDUR to determine the exact amount of time the woman had been pregnant.

The question associated with this variable was included in the female questionnaire.

---

### Gestational age when removed pregnancy (value)

---

1	22 (0.3%)
2	16 (0.2%)
3	8 (0.1%)
4	1 (<0.1%)
5	1 (<0.1%)
8	2 (<0.1%)
NIU (not in universe)	6,570 (99%)
Unknown	89,861

---

## ABORINSCHOOL

For women who have ever ended a pregnancy and have ever attended school, ABORINSCHOOL indicates whether the woman was attending school at the time of her abortion.

The question associated with this variable was included in the female questionnaire.

---

### Attended school when removed pregnancy

---

No	22 (0.3%)
Yes	18 (0.3%)
NIU (not in universe)	6,580 (99%)
Unknown	89,861

---

## ABORURBAN

For women who have ever ended a pregnancy, ABORURBAN indicates whether she lived in a village, a small town, or a large city at the time.

The question associated with this variable was included in the female questionnaire.

---

### Location type when removed pregnancy

---

City	34 (0.5%)
Town	7 (0.1%)
Village	11 (0.2%)
NIU (not in universe)	6,568 (99%)
Unknown	89,861

---

## ABORTHER

For women who have had an abortion, ABORTHER indicates whether the woman has had any other abortions.

The question associated with this variable was included in the female questionnaire.

---

### Had more than one abortion

---

No	472 (17%)
Yes	39 (1.4%)
NIU (not in universe)	2,286 (82%)
Unknown	93,684

---

## ABORNUM

For women who have had at least 2 abortions, ABORNUM indicates how many times the woman has had an abortion before her last abortion.

The question associated with this variable was included in the female questionnaire.

Number of abortions before last abortion	
1 time	17 (0.6%)
2 times	16 (0.6%)
3 times	3 (0.1%)
4 times	3 (0.1%)
NIU (not in universe)	2,758 (99%)
Unknown	93,684

## ABOR1STYR

For women aged 15-49 who have aborted more than one pregnancy, ABOR1STYR reports the year of her first aborted pregnancy.

This question associated with this variable was included in the female questionnaire.

Year of first aborted pregnancy	
1986	1 (<0.1%)
1996	1 (<0.1%)
1997	2 (<0.1%)
1998	1 (<0.1%)
1999	2 (<0.1%)
2002	2 (<0.1%)
2003	1 (<0.1%)
2004	1 (<0.1%)
2005	2 (<0.1%)
2006	3 (0.1%)
2007	3 (0.1%)
2008	5 (0.2%)
2009	2 (<0.1%)
2010	3 (0.1%)
2012	3 (0.1%)
2013	2 (<0.1%)
2014	1 (<0.1%)
2015	1 (<0.1%)
2016	2 (<0.1%)
2017	1 (<0.1%)
NIU (not in universe)	2,758 (99%)

## ABORMULT

ABORMULT indicates whether the woman sought multiple methods to terminate her last aborted pregnancy.

The question associated with this variable was included in the female questionnaire.

---

### Used multiple abortion methods

---

No	1,824 (6.9%)
Yes	515 (1.9%)
No response or missing	2 (<0.1%)
NIU (not in universe)	24,206 (91%)
Unknown	69,934

---

## ABORONLYMETH

For women aged 15-49 who have ever induced an abortion to terminate a pregnancy, and who sought only one method to do so, ABORONLYMETH indicates which method she used. If the woman had aborted multiple pregnancies, the interviewer specified that this response should refer only to the most recent one.

The question associated with this variable was included in the female questionnaire.

---

### Only abortion method used

---

Surgery	817 (3.1%)
Abortion pills	247 (0.9%)
Misoprostol	4 (<0.1%)
Misoprostol and mifepristone	1 (<0.1%)
Fever pills	34 (0.1%)
Emergency contraception	50 (0.2%)
Other pills	182 (0.7%)
Injection	98 (0.4%)
Traditional herbs	203 (0.8%)
Alcohol	18 (<0.1%)
Satls	15 (<0.1%)
Lemon / lime	12 (<0.1%)
Inserted material	23 (<0.1%)
Contraceptive pills	2 (<0.1%)
Ingested industrial products	38 (0.1%)
Other	62 (0.2%)
Don't know	14 (<0.1%)
No response or missing	4 (<0.1%)
NIU (not in universe)	24,723 (93%)
Unknown	69,934

---

## ABORFIRSTMETH

For women aged 15-49 who have ever induced an abortion to terminate a pregnancy, and who sought more than one method to do so, ABORFIRSTMETH indicates which method she tried first. If the woman had aborted multiple pregnancies, the interviewer specified that this response should refer only to the most recent one.

The question associated with this variable was included in the female questionnaire.

---

### First of multiple abortion methods used

---

Surgery	53 (0.2%)
Abortion pills	79 (0.3%)
Fever pills	18 (<0.1%)
Emergency contraception	31 (0.1%)
Other pills	84 (0.3%)
Injection	34 (0.1%)
Traditional herbs	117 (0.4%)
Alcohol	20 (<0.1%)
Salts	7 (<0.1%)
Lemon / lime	19 (<0.1%)
Cough Syrup	1 (<0.1%)
Inserted material	12 (<0.1%)
Ingested industrial products	25 (<0.1%)
Other	15 (<0.1%)
NIU (not in universe)	26,032 (98%)
Unknown	69,934

---

## ABORLASTMETH

For women aged 15-49 who have ever induced an abortion to terminate a pregnancy, and who sought more than one method to do so, ABORLASTMETH indicates which method she tried last. If the woman had aborted multiple pregnancies, the interviewer specified that this response should refer only to the most recent one.

The question associated with this variable was included in the female questionnaire.

---

### Last of multiple abortion methods used

---

Surgery	249 (0.9%)
Abortion pills	59 (0.2%)
Fever pills	9 (<0.1%)
Emergency contraception	8 (<0.1%)
Other pills	47 (0.2%)
Injection	37 (0.1%)
Traditional herbs	56 (0.2%)
Alcohol	6 (<0.1%)
Salts	3 (<0.1%)
Lemon / lime	2 (<0.1%)
Inserted material	15 (<0.1%)
Ingested industrial products	10 (<0.1%)
Other	11 (<0.1%)
Don't know	2 (<0.1%)
No response or missing	1 (<0.1%)
NIU (not in universe)	26,032 (98%)
Unknown	69,934

---

## ABORMEDGIVEN

For women who had ever successfully removed a pregnancy, ABORMEDGIVEN reports whether she had been given medication for pain, and whether it did anything to stop the pain.

The question associated with this variable was included in the female questionnaire.

---

### Given medicine for pain when removing pregnancy

---

Was not given anything	16 (0.2%)
Given something that didn't stop pain	9 (0.1%)
Given something that stopped pain	17 (0.3%)
None of the above	10 (0.2%)
NIU (not in universe)	6,568 (99%)
Unknown	89,861

---

## ABORCARE

ABORCARE indicates whether the woman had any health issues related to her last aborted pregnancy that caused her to go to a health facility for treatment. Interviewers specified that this should refer to a visit subsequent to the visit for abortion surgery or to obtain abortion medication, if applicable.

The question associated with this variable was included in the female questionnaire.

---

### Sought abortion healthcare at facility

---

No	1,555 (7.8%)
Yes	237 (1.2%)
Yes, I think so	6 (<0.1%)
Yes, certain	216 (1.1%)
Don't know	2 (<0.1%)
NIU (not in universe)	17,988 (90%)
Unknown	76,477

---

## ABORFIRSTMEDLOC

ABORFIRSTMEDLOC indicates the place the woman obtained the medication she used to induce her last abortion, but only if it was either the first or only method tried. This medication could include pills called mifepristone or misoprostol (e.g. Mariprist, Mifepak, Cytotec, Miso-Fem, or Misoclear), pills otherwise taken for a fever (e.g. antibiotics or anti-malarial medicines like quinine), emergency contraception, or any other type of pill.

The question associated with this variable was included in the female questionnaire.

---

### Where abortion medication sought as first / only method

---

Government hospital	14 (0.1%)
Government health center	7 (<0.1%)
Mobile clinic, public	2 (<0.1%)
Field worker, public	1 (<0.1%)
Private hospital	19 (0.2%)
Mobile clinic, private	1 (<0.1%)
Private doctor	20 (0.2%)
Pharmacy	122 (1.1%)
Chemical/drug store	189 (1.7%)
Shop	2 (<0.1%)
Market	3 (<0.1%)
Church / religious organization	1 (<0.1%)
Friend / relative	5 (<0.1%)
Other	2 (<0.1%)
Don't know	4 (<0.1%)
NIU (not in universe)	10,823 (97%)
Unknown	85,266

---

## ABORLASTMEDLOC

ABORLASTMEDLOC indicates the place the woman obtained the medication she ultimately used to induce her last abortion, but only if other methods were tried first. These medications could include pills called mifepristone or misoprostol (e.g. Mariprist, Mifepak, Cytotec, Miso-Fem, or Misoclear), pills otherwise taken for a fever (e.g. antibiotics or anti-malarial medicines like quinine), emergency contraception, or any other type of pill.

The question associated with this variable was included in the female questionnaire.

---

### Where abortion medication sought as last of multiple methods

---

Government hospital	6 (<0.1%)
Government health center	3 (<0.1%)
Private hospital	6 (<0.1%)
Mobile clinic, private	1 (<0.1%)
Private doctor	9 (<0.1%)
Pharmacy	12 (0.1%)
Chemical/drug store	23 (0.2%)
Market	1 (<0.1%)
NIU (not in universe)	11,154 (99%)
Unknown	85,266

---

## ABORFIRSTSURGLOC

ABORFIRSTSURGLOC indicates the place the woman had her last abortion surgery, but only if it was either the first or only method tried.

The question associated with this variable was included in the female questionnaire.

---

### Where abortion surgery sought as first / only method

---

Government hospital	78 (0.5%)
Government health center	29 (0.2%)
Family planning clinic, public	3 (<0.1%)
Other, public	1 (<0.1%)
Private hospital / clinic	109 (0.7%)
Private hospital	356 (2.3%)
Mobile clinic, private	3 (<0.1%)
Private doctor	89 (0.6%)
Pharmacy	8 (<0.1%)
Chemist/drug store	7 (<0.1%)
Other, private	4 (<0.1%)
Shop	1 (<0.1%)
Market	1 (<0.1%)
Friend / relative	6 (<0.1%)
Traditional healer	20 (0.1%)
Self	24 (0.2%)
Other	7 (<0.1%)
NIU (not in universe)	14,757 (95%)
Unknown	80,978

---

## ABORLASTSURGLOC

ABORLASTSURGLOC indicates the place the woman had her last abortion surgery, but only if other methods were tried first.

In Burkina Faso 2021, this variable indicates where the woman went to try to remove a pregnancy, including for methods other than surgery (ABORLASTMETH).

The question associated with this variable was included in the female questionnaire.

---

### Where abortion surgery sought as last of multiple methods

---

Government hospital	45 (0.2%)
Government health center	14 (<0.1%)
Family planning clinic, public	3 (<0.1%)
Government health post	2 (<0.1%)
Government sub health center	2 (<0.1%)
Government dispensary	1 (<0.1%)
Private hospital	133 (0.5%)
Mobile clinic, private	4 (<0.1%)
Private doctor	43 (0.2%)
Pharmacy	2 (<0.1%)

## ABORYFETUSHLTH

For women who have had an abortion, ABORYFETUSHLTH indicates whether one reason that motivated the woman to remove her pregnancy was possible health issues of the fetus. Women could report more than one motivating reason for the abortion.

The question associated with this variable was included in the female questionnaire.

---

### Aborted because of fetus health issues

---

No	495 (18%)
Yes	13 (0.5%)
None of the above	3 (0.1%)
NIU (not in universe)	2,286 (82%)
Unknown	93,684

---

## ABORYSOCIAL

For women who have had an abortion, ABORYSOCIAL indicates whether one reason that motivated the woman to remove her pregnancy was that she did not want others to know that she had sexual intercourse or that she was pregnant. Women could report more than one motivating reason for the abortion.

The question associated with this variable was included in the female questionnaire.

---

### Aborted because others would know about sexual intercourse/pregnancy

---

No	485 (17%)
Yes	23 (0.8%)
None of the above	3 (0.1%)
NIU (not in universe)	2,286 (82%)
Unknown	93,684

---

## ABORYHEALTH

For women who have had an abortion, ABORYHEALTH indicates whether one reason that motivated the woman to remove her pregnancy was her own health issues. Women could report more than one motivating reason for the abortion.

The question associated with this variable was included in the female questionnaire.

---

### Aborted because of mother's health issues

---

No	482 (17%)
Yes	26 (0.9%)
None of the above	3 (0.1%)
NIU (not in universe)	2,286 (82%)
Unknown	93,684

---

## ABORMATURE

For women who have had an abortion, ABORMATURE indicates whether one reason that motivated the woman to remove her pregnancy was that she was too immature or too young to have a child. Women could report more than one motivating reason for the abortion.

The question associated with this variable was included in the female questionnaire.

---

### Aborted because too immature/young to have child

No	455 (16%)
Yes	53 (1.9%)
None of the above	3 (0.1%)
NIU (not in universe)	2,286 (82%)
Unknown	93,684

---

## ABORYWORRIED

For women who have had an abortion, ABORYWORRIED indicates whether one reason that motivated the woman to remove her pregnancy was that she was worried about how having a child might affect her life. Women could report more than one motivating reason for the abortion.

The question associated with this variable was included in the female questionnaire.

---

### Aborted because worried about how having a child will affect her life

---

No	494 (18%)
Yes	14 (0.5%)
None of the above	3 (0.1%)
NIU (not in universe)	2,286 (82%)
Unknown	93,684

---

## ABORYOTH

For women who have had an abortion, ABORYOTH indicates whether the woman was motivated to remove her pregnancy for some other reason not listed as a survey option. Women could report more than one motivating reason for the abortion.

The question associated with this variable was included in the female questionnaire.

---

### Aborted because of other reasons

---

No	403 (14%)
Yes	105 (3.8%)
None of the above	3 (0.1%)
NIU (not in universe)	2,286 (82%)
Unknown	93,684

---

## ABORDECDAD

For women who have ever done anything to end a pregnancy, ABORDECDAD indicates whether the woman's father was involved in the decision to end the pregnancy.

The question associated with this variable was included in the female questionnaire.

---

### Involved in decision to remove pregnancy: Father

---

No	48 (0.7%)
Yes	4 (<0.1%)
NIU (not in universe)	6,568 (99%)
Unknown	89,861

---

## ABORDECFEMREL

For women who have ever done anything to end a pregnancy, ABORDECFEMREL indicates whether another female relative was involved in the decision to end the pregnancy.

The question associated with this variable was included in the female questionnaire.

---

### Involved in decision to remove pregnancy: Other female relative

---

No	43 (0.6%)
Yes	9 (0.1%)
NIU (not in universe)	6,568 (99%)
Unknown	89,861

---

## ABORDECFRND

For women who have ever done anything to end a pregnancy, ABORDECFRND indicates whether a named female friend was involved in the decision to end the pregnancy.

The question associated with this variable was included in the female questionnaire.

---

### Involved in decision to remove pregnancy: Named female friend

---

No	42 (0.6%)
Yes	10 (0.2%)
NIU (not in universe)	6,568 (99%)
Unknown	89,861

---

## ABORDECHEALER

For women who have ever done anything to end a pregnancy, ABORDECHEALER indicates whether a traditional healer was involved in the decision to end the pregnancy.

The question associated with this variable was included in the female questionnaire.

---

### Involved in decision to remove pregnancy: Traditional healer

---

No	50 (0.8%)
Yes	2 (<0.1%)
NIU (not in universe)	6,568 (99%)
Unknown	89,861

## **ABORDECMALEREL**

For women who have ever done anything to end a pregnancy, ABORDECMALEREL indicates whether another male relative than the woman's husband or father was involved in the decision to end the pregnancy.

The question associated with this variable was included in the female questionnaire.

---

### **Involved in decision to remove pregnancy: Other male relative**

---

No	50 (0.8%)
Yes	2 (<0.1%)
NIU (not in universe)	6,568 (99%)
Unknown	89,861

---

## **ABORDECMIL**

For women who have ever done anything to end a pregnancy, ABORDECMIL indicates whether her mother-in-law was involved in the decision to end the pregnancy.

The question associated with this variable was included in the female questionnaire.

---

### Involved in decision to remove pregnancy: Mother-in-law

---

No	50 (0.8%)
Yes	2 (<0.1%)
NIU (not in universe)	6,568 (99%)
Unknown	89,861

---

## ABORDECMOM

For women who have ever done anything to end a pregnancy, ABORDECMOM indicates whether her mother was involved in the decision to end the pregnancy.

The question associated with this variable was included in the female questionnaire.

---

### Involved in decision to remove pregnancy: Mother

---

No	47 (0.7%)
Yes	5 (<0.1%)
NIU (not in universe)	6,568 (99%)
Unknown	89,861

---

## ABORDECOTHFRND

For women who have ever done anything to end a pregnancy, ABORDECOTHFRND indicates whether other friends not specified elsewhere were involved in the decision to end the pregnancy.

The question associated with this variable was included in the female questionnaire.

---

### Involved in decision to remove pregnancy: Other friends

---

No	49 (0.7%)
Yes	3 (<0.1%)
NIU (not in universe)	6,568 (99%)
Unknown	89,861

---

## ABORDECPARTNER

For women who have ever done anything to end a pregnancy, ABORDECPARTNER indicates whether her husband/partner was involved in the decision to end the pregnancy.

The question associated with this variable was included in the female questionnaire.

---

### Involved in decision to remove pregnancy: Partner

---

No	31 (0.5%)
Yes	21 (0.3%)
NIU (not in universe)	6,568 (99%)
Unknown	89,861

---

## ABORDECPROV

For women who have ever done anything to end a pregnancy, ABORDECPROV indicates whether her health provider was involved in the decision to end the pregnancy.

The question associated with this variable was included in the female questionnaire.

---

### Involved in decision to remove pregnancy: Health provider

---

No	48 (0.7%)
Yes	4 (<0.1%)
NIU (not in universe)	6,568 (99%)
Unknown	89,861

---

## ABORDECOTH

For women who have ever done anything to end a pregnancy, ABORDECOTH indicates whether another person not already specified was involved in the decision to end the pregnancy. Women who responded “yes” to this question specified the relationship of this other person in ABORDECOTHSP.

The question associated with this variable was included in the female questionnaire.

---

### Involved in decision to remove pregnancy: Other

---

No	48 (0.7%)
Yes	4 (<0.1%)
NIU (not in universe)	6,568 (99%)
Unknown	89,861

---

## **ABORDECOTHSP**

For women who have ever done anything to end a pregnancy, ABORDECOTHSP contains the exact string response about which other person not already specified was involved in the woman's decision to end the pregnancy.

The question associated with this variable was included in the female questionnaire.

*Table omitted for space constraints*

## **ABORDISCFRND1**

ABORDISCFRND1 indicates whether the woman discussed her last aborted pregnancy with her closest friend.

The question associated with this variable was included in the female questionnaire.

---

### Discussed aborting pregnancy with Friend 1

---

No	219 (2.5%)
Yes	253 (2.9%)
NIU (not in universe)	8,317 (95%)
Unknown	87,692

---

## ABORDISCFRND2

ABORDISCFRND2 indicates whether the woman discussed her last aborted pregnancy with her second closest friend.

The question associated with this variable was included in the female questionnaire.

---

### Discussed aborting pregnancy with Friend 2

---

No	64 (1.5%)
Yes	33 (0.8%)
NIU (not in universe)	4,191 (98%)
Unknown	92,193

---

## ABORDISCFRND3

ABORDISCFRND3 indicates whether the woman discussed her last aborted pregnancy with her third closest friend.

The question associated with this variable was included in the female questionnaire.

---

### Discussed aborting pregnancy with Friend 3

---

No	81 (1.9%)
Yes	16 (0.4%)
NIU (not in universe)	4,191 (98%)
Unknown	92,193

---

## ABORDISCNONE

For women aged 15-49 who have ever had an abortion to terminate a pregnancy, ABORDISCNONE indicates whether they discussed aborting this pregnancy with no one.

The question associated with this variable was included in the female questionnaire.

---

### Discussed aborting pregnancy with no one

---

No	74 (1.7%)
Yes	23 (0.5%)
NIU (not in universe)	4,191 (98%)
Unknown	92,193

---

## ABORCFBRO

For a woman aged 15-49 who has ever had an abortion to terminate a pregnancy, ABORCFBRO indicates whether she told her brother about the experience.

The question associated with this variable was included in the female questionnaire.

---

### Abortion confidant: brother

---

No	1,262 (11%)
Yes	51 (0.5%)
Don't know	38 (0.3%)
No response or missing	37 (0.3%)
NIU (not in universe)	9,827 (88%)
Unknown	85,266

---

## ABORCFDAD

For a woman aged 15-49 who has ever had an abortion to terminate a pregnancy, ABORCFDAD indicates whether she told her father about the experience.

The question associated with this variable was included in the female questionnaire.

---

### Abortion confidant: father

---

No	1,322 (7.4%)
Yes	43 (0.2%)
Don't know	38 (0.2%)
No response or missing	37 (0.2%)
NIU (not in universe)	16,395 (92%)
Unknown	78,646

---

## ABORCFRND1

For a woman aged 15-49 who has ever had an abortion to terminate a pregnancy, ABORCFRND1 indicates whether she told her closest friend about the experience.

The question associated with this variable was included in the female questionnaire.

---

### Abortion confidant: friend 1

---

No	917 (8.2%)
Yes	396 (3.5%)
Don't know	38 (0.3%)
No response or missing	37 (0.3%)
NIU (not in universe)	9,827 (88%)
Unknown	85,266

---

## ABORCFRND2

For a woman aged 15-49 who has ever had an abortion to terminate a pregnancy, ABORCFRND2 indicates whether she told her second closest friend about the experience.

The question associated with this variable was included in the female questionnaire.

---

### Abortion confidant: friend 2

---

No	1,208 (11%)
Yes	105 (0.9%)
Don't know	38 (0.3%)
No response or missing	37 (0.3%)
NIU (not in universe)	9,827 (88%)
Unknown	85,266

---

## ABORCFMOM

For a woman aged 15-49 who has ever had an abortion to terminate a pregnancy, ABORCFMOM indicates whether she told her mother about the experience.

The question associated with this variable was included in the female questionnaire.

---

### Abortion confidant: mother

---

No	1,183 (6.6%)
Yes	182 (1.0%)
Don't know	38 (0.2%)
No response or missing	37 (0.2%)
NIU (not in universe)	16,395 (92%)
Unknown	78,646

---

## ABORCFRNDOTH

For a woman aged 15-49 who has ever had an abortion to terminate a pregnancy, ABORCFRNDOTH indicates whether she told any friend beyond her two closest friends about the experience.

The question associated with this variable was included in the female questionnaire.

---

### Abortion confidant: other friend

---

No	1,212 (6.8%)
Yes	153 (0.9%)
Don't know	38 (0.2%)
No response or missing	37 (0.2%)
NIU (not in universe)	16,395 (92%)
Unknown	78,646

---

## **ABORCFRELOTH**

For a woman aged 15-49 who has ever had an abortion to terminate a pregnancy, ABORCFRELOTH indicates whether she told any relative other than those listed on the questionnaire about the experience.

The question associated with this variable was included in the female questionnaire.

---

### **Abortion confidant: other relative**

---

No	1,235 (11%)
Yes	78 (0.7%)
Don't know	38 (0.3%)
No response or missing	37 (0.3%)
NIU (not in universe)	9,827 (88%)
Unknown	85,266

---

## ABORCFPART

For a woman aged 15-49 who has ever had an abortion to terminate a pregnancy, ABORCFPART indicates whether she told her partner about the experience.

The question associated with this variable was included in the female questionnaire.

---

### Abortion confidant: partner

---

No	634 (3.6%)
Yes	731 (4.1%)
Don't know	38 (0.2%)
No response or missing	37 (0.2%)
NIU (not in universe)	16,395 (92%)
Unknown	78,646

---

## ABORCFSIS

For a woman aged 15-49 who has ever had an abortion to terminate a pregnancy, ABORCFSIS indicates whether she told her sister about the experience.

The question associated with this variable was included in the female questionnaire.

---

### Abortion confidant: sister

---

No	1,109 (9.9%)
Yes	204 (1.8%)
Don't know	38 (0.3%)
No response or missing	37 (0.3%)
NIU (not in universe)	9,827 (88%)
Unknown	85,266

---

## **ABORcffemrel**

For a woman aged 15-49 who has successfully removed a pregnancy, ABORcffemrel indicates whether she told a female relative other than her mother or mother-in-law about the experience.

The question associated with this variable was included in the female questionnaire.

---

### **Abortion confidant: Other female relative**

---

No	44 (0.7%)
Yes	8 (0.1%)
NIU (not in universe)	6,568 (99%)
Unknown	89,861

---

## ABORCFFRND

For women aged 15-49 who has successfully removed a pregnancy, ABORCFFRND indicates whether she told her close friend about the experience. This question refers to the close friend the woman answered questions from an abortion module about.

The question associated with this variable was included in the female questionnaire.

---

### Abortion confidant: Named female friend

---

No	27 (0.4%)
Yes	25 (0.4%)
NIU (not in universe)	6,568 (99%)
Unknown	89,861

---

## ABORCFHEALER

For women aged 15-49 who has successfully removed a pregnancy, ABORCFHEALER indicates whether she told a traditional healer about the experience.

The question associated with this variable was included in the female questionnaire.

---

### Abortion confidant: Traditional healer

---

No	51 (0.8%)
Yes	1 (<0.1%)
NIU (not in universe)	6,568 (99%)
Unknown	89,861

---

## **ABORCFMALEREL**

For women aged 15-49 who has successfully removed a pregnancy, ABORCFMALEREL indicates whether she told a male relative other than her father about the experience.

The question associated with this variable was included in the female questionnaire.

---

### Abortion confidant: Other male relative

---

No	51 (0.8%)
Yes	1 (<0.1%)
NIU (not in universe)	6,568 (99%)
Unknown	89,861

---

## ABORCFMIL

For women aged 15-49 who has successfully removed a pregnancy, ABORCFMIL indicates whether she told her mother-in-law about the experience.

The question associated with this variable was included in the female questionnaire.

---

### Abortion confidant: Mother-in-law

---

No	50 (0.8%)
Yes	2 (<0.1%)
NIU (not in universe)	6,568 (99%)
Unknown	89,861

---

## ABORCFPROV

For women aged 15-49 who has successfully removed a pregnancy, ABORCFPROV indicates whether she told her health care provider about the experience.

The question associated with this variable was included in the female questionnaire.

---

### Abortion confidant: Health provider

---

No	48 (0.7%)
Yes	4 (<0.1%)
NIU (not in universe)	6,568 (99%)
Unknown	89,861

---

## ABORCFOTH

For a woman aged 15-49 who has ever had an abortion to terminate a pregnancy, ABORCFOTH indicates whether she told anyone other than the people listed on the questionnaire about the experience.

The question associated with this variable was included in the female questionnaire.

---

### Abortion confidant: Other (Specify)

---

No	820 (7.3%)
Yes	493 (4.4%)
Don't know	38 (0.3%)
No response or missing	37 (0.3%)
NIU (not in universe)	9,827 (88%)
Unknown	85,266

---

## **ABORCFOTHSP**

ABORCFOTHSP contains the exact string response of which other person not already specified in the questionnaire that the woman told about her experience of removing a pregnancy.

The question associated with this variable was included in the female questionnaire.

*Table omitted for space constraints*

## ABORMEDEXPECT

For women who have received treatment at a health facility, did not receive surgery as a treatment, and successfully ended a pregnancy or successfully brought back a period, ABORMEDEXPECT indicates whether she knew what to expect after taking medicine to end a pregnancy.

The question associated with this variable was included in the female questionnaire.

---

### Knew what to expect after taking medicine to end pregnancy

---

No	55 (0.8%)
Yes	78 (1.2%)
Don't know	1 (<0.1%)
NIU (not in universe)	6,486 (98%)
Unknown	89,861

---

## ABORSURGEXPECT

For women who have received surgery at a health facility to remove a pregnancy, and successfully ended a pregnancy or successfully brought back a period, ABORSURGEXPECT indicates whether she knew what to expect after having surgery to end a pregnancy.

The question associated with this variable was included in the female questionnaire.

---

### Knew what to expect after having surgery to remove pregnancy

---

No	3 (<0.1%)
Yes	4 (<0.1%)
NIU (not in universe)	6,613 (100%)
Unknown	89,861

---

## ABORFRNDHOWKNOW

ABORFRNDHOWKNOW indicates how the woman's closest friend knows about the termination of the woman's pregnancy.

The question associated with this variable was included in the female questionnaire.

---

### How her friend knows about her pregnancy removal

---

Woman told the friend	24 (0.4%)
NIU (not in universe)	6,596 (100%)
Unknown	89,861

---

## ABORFRNDKNOW

ABORFRNDKNOW indicates whether the woman's closest friend knows about the termination of the woman's pregnancy.

The question associated with this variable was included in the female questionnaire.

---

### Thinks her friend knows about her pregnancy removal

---

No	10 (0.2%)
Yes	24 (0.4%)
NIU (not in universe)	6,586 (99%)
Unknown	89,861

---

## ABORSTARTFP

ABORSTARTFP reports how long after removing her pregnancy the woman started using family planning.

The question associated with this variable was included in the female questionnaire.

---

### When started using family planning after pregnancy removal

---

Less than 1 week	9 (0.1%)
1 to 4 weeks	5 (<0.1%)
1 to 2 months	8 (0.1%)
3 to 6 months	5 (<0.1%)
NIU (not in universe)	6,593 (100%)
Unknown	89,861

---

## ABORGRP

ABORGRP reports the subgroup to which a women belongs if she was included in the universe for either of the following variable series.

Subgroup 1 defines the universe for: ABOR1EVCTRL2EVABOR1YRCTRL2YRSubgroup 2 defines the universe for: ABOR2EVCTRL1EVABOR2YRCTRL1YR

---

### Subgroup assignment for variables listing health experiences

---

Subgroup 1	3,281 (50%)
Subgroup 2	3,303 (50%)
No response or missing	12 (0.2%)
NIU (not in universe)	24 (0.4%)
Unknown	89,861

---
